

# Raising the curtain on **Nimble Author 2**

The super-easy way to create  
beautiful multi-device elearning

# Everything you need to train your teams online

Our Nimble product family; **Nimble Author 2**, **Nimble LMS** and **Nimble Courses** are great on their own, but work even better together. They allow you to quickly build your own engaging online learning and release it to your teams – saving you time and money.

## A complete solution that's ready to go

We provide an integrated online learning system that's super-easy to use. It's so quick, you can be up and running in minutes!

## Outstanding customer support

From creating your first course, to launching your programme – we've got you covered. Full support is included with every annual licence.

## Peace of mind

Security underpins everything we do. We are ISO27001 and Cyber Essentials certified to ensure our services are dependable and your data is protected.

## Industry and customer recognition

Consistently recognised for outstanding user experience, customer experience and value for money based on user reviews.

# nimble<sup>®</sup> Author 2

Try it now!

The super-easy way to create beautiful, multi-device elearning courses your learners will love.

The image shows a screenshot of the Nimble Author 2 software interface. On the left is a dark sidebar with various content creation tools like text, images, audio, video, and assessments. The main area displays a course slide titled 'Topic 1: Getting started' with a photo of a man and some text. Five purple callout bubbles point to different parts of the interface:

- Simple drag & drop interface**: Points to the sidebar tool palette.
- Add your company branding**: Points to the top navigation bar.
- Royalty free image library**: Points to the image on the course slide.
- Flexible page templates**: Points to the 'Page Layout' settings at the bottom left.
- Preview on multiple devices**: Points to the device selection icons at the bottom right.

Build engaging courses faster with Nimble Author 2

- ✓ Easy drag and drop interface – there's no learning curve!
- ✓ Completely cloud-based with no installation (or IT team) needed
- ✓ No elearning experience necessary
- ✓ Optimised for every device and Learning Management System
- ✓ Training and support included
- ✓ Have a go with our unlimited, no obligation, FREE trial!

# nimble<sup>®</sup>LMS

Manage your online learning programme with ease using our beautifully simple Learning Management System (LMS).

The screenshot shows the nimbleLMS dashboard. At the top, there's a navigation bar with 'nimbleLMS' and a 'Log out' link. Below that, there are three main action buttons: 'Courses', 'Learners', and 'Results'. A callout bubble points to the 'Courses' button with the text 'Create your own online courses'. Another callout bubble points to the 'Results' button with the text 'Detailed learner analytics'. On the left side, there are buttons for 'Add your company branding' and 'Manage your learners with ease'. A callout bubble points to the 'Manage your learners with ease' button with the text 'Simple user-friendly interface'. The main content area shows a table of learners with columns for name, email, department, number of courses, and creation date. A callout bubble points to the table with the text 'Simple user-friendly interface'.

**Create your own online courses**
